

ROCKFORD ROBOTICS

'we think outside the 'bots

First Lego League Team

Rockford Robotics, Inc. is now the proud host of a FIRST LEGO League team, where elementary and middle school-aged students research a real-world engineering challenge, develop a solution, and compete with LEGO-based robots of their own design

The Rockford Rovers (FLL 32323) are 11 students, fourth through eighth grade, from around the Rockford region.

This year's game challenge is HYDRO DYNAMICS. It is a chance to learn all about water - how we find, transport, use, or dispose of it.

Learn about the game on the [FIRST Website](#)

Team 32323 visit to the Rock River Water Reclamation District.

FTC Rockford Division Volunteers Needed

Rockford Robotics is again organizing the Rockford FTC division. This involves providing the field perimeter and playing tiles, as well as recruiting key volunteers for all three league meets.

The [Volunteer Info Sheet](#) describing the volunteer roles we need to fill - if you are available and interested in helping out on November 11th, December 2nd, or January 20th, please let [Eric Williams](#) know.

2017 Sponsors

Rockford Robotics appreciates the support of our generous sponsors and encourages others to join them.
