

Rockford Robotics

FRC Team 2039

Could your organization benefit from more Rockford-area students having hands on technical skills? Would your organization like to interact with serious minded high school students and to promote technical careers in the Rockford area? Would an educated work force that is committed to this community be of benefit to you? Let our students demonstrate their passion and potential to your organization. We are a 501(c)(3) not-for-profit organization dedicated to supporting community based competitive robotics teams for students grades 7-12 that participate in FIRST (For Inspiration and Recognition of Science and Technology) robotics programs. Your sponsorship will go a long way in continuing this mission.

Students, with the help of volunteer adult mentors, design, build, and drive robots ranging from LEGO creations to 120-pound 5-foot tall custom machines with complex industrial control systems. Along the way, students obtain skills in the fields of Science, Technology, Engineering, and Mathematics (STEM). The skills they learn are directly applicable and transferable to the workforce.

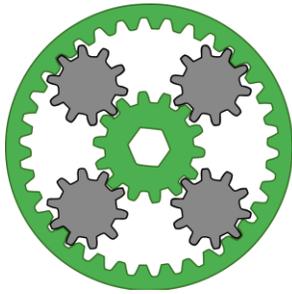

As an organization, we are deeply committed to promoting STEM, especially within the greater Rockford community. We participate in demonstrations, community outreach events and robotics competitions throughout the year to bring our passion for STEM education to as many people as possible. We have been inspired by a neighboring Illinois team, Mars Wars of Metamora, to participate in their outreach program which modifies power wheel type vehicles for students with mobility issues. We are very excited about this new project and look forward to sharing our progress.

Additionally, our students are provided opportunities to develop career-readiness through taking on leadership roles throughout the organization and presenting their ideas and work to peers and adults. All of our activities build and demand teamwork skills in a high intensity environment.

Rockford Robotics

FRC Team 2039

There are several ways to support Rockford Robotics. You can help our team by:

- ✓ Publicizing our events throughout your organization.
- ✓ Encouraging your students to investigate Rockford Robotics.
- ✓ Encouraging your employees to consider mentoring.
- ✓ Donating funds or materials
- ✓ Providing build to print parts
- ✓ Providing services such as machining, welding or finishing
- ✓ Providing other needed services
- ✓ Provide internship opportunities for college students to return to the community

In return, we will promote your company in a number of manners:

Sponsor Tier Chart

What do Sponsors Receive?					
	Platinum \$10,000	Gold \$5,000	Silver \$1,000	Steel \$500	Bronze \$250
Company Logo on Robot	Large Logo	Medium Logo	Small Logo		
Company Name on Team T-shirt	Large Font	Medium Font	Medium Font	Small Font	
Company Name on Pit Banner	*	*	*		
Company Logo on Website	*	*	*	*	*
Company Link on E-Blasts	*	*	*	*	*
Company Link on Website	*	*	*	*	*

Our students would love the opportunity to demonstrate their passion and potential to your organization. We regularly present, on location, more detailed information about our history, previous seasons achievements, operating details including budget, current projects and plans for the future.

For more information, or if you would like to arrange a student presentation, please email our Sponsor Coordination Mentor at info@RockfordRobotics.com. Please also visit our website at www.rockfordrobotics.com and check out our team, outreach events, and a list of our current and past sponsors.

Thank you for taking the time to learn more about our organization and we hope to add you to our list of sponsors soon!
